

Estha Parg Murenbeeld

Retired teacher and squash player,
NSPC member since 2018.

What I have been doing as a NSPC Board member since May 2019:

- The job of Communications Director, i.e. emails and website management,
- Collaborated with Heather on writing the many letters and reports from NSPC to NVRC, Parks and the NV Sports Council,
- Monitoring provincial orders governing pickleball and providing for safe local play,
- Setup the NSPC portal for the 2021 PCO National Registration System,
- Facilitated the construction and installation of whiteboards at the courts,
- Hosted outdoor instruction for Handsworth students,
- Added the North Shore to Playtime Scheduler as the local administrator.

What I love about the job:

- The creativity of distilling the essences of an issue into a letter or report,
- Making more pickleball happen for more people in more locations!

Estha is willing to serve the Board for one more year.

Shashi Shrivastava

Shashi is a retired professional engineer and a North Shore resident of over 40 years.

He is an ex-racquetball player and ex-runner and was introduced to Pickleball by a friend about four years ago, and it immediately became his favorite sport. He generally plays at the West Van and Delbrook Rec Centres and at Murdo Frazer and Mahon outdoor courts during the summer months.

Shashi is the founding member of the Pickleball Social Committee and passionately believes that socializing is an important aspect of the game. He was also the Area Leader for Murdo last year and will be actively assisting the plays at Murdo this season.

He hopes that sometime soon we will have a dedicated Pickleball Facility for year-round playing with change rooms, stretching area and a small social area.

Randy Reimann

Retired ex-BC Hydro utility planner.

Loves playing pickleball and other sports.

Murdo Frazer Court Coordinator – hoping to have an active season of pickleball and meet more of the members.

Kit Chan

I am 63 years old and had been a resident in the Seymour area for the last 31 years.

I am a retired mechanical engineer. I have worked for General Motors of Canada as a project engineer for 10 years and Worksafe as a mechanical engineer for 23 years. I have also built 8 houses acting as general contractor in the North Shore and elsewhere.

I started playing pickleball 2 years ago and have been hooked ever since.

Karen Wilson

I have lived on the North Shore for 60 years, specifically east of Seymour for 50 years. I grew up on Roslyn Blvd. and spent many days playing at Cates Park as a child.

I was introduced to pickleball in 2017 and quickly became addicted to the sport as many of us do. Through pickleball, I have also made many new friends in the community as it is a very social sport.

I have and continue to volunteer with helping to organize and participate in the Door to Door Campaign canvassing for the Canadian Cancer Society for 15 years. Before I retired, I worked as a course liaison for Continuing Legal Education

As well as pickleball I am an avid golfer, hiker and biker on the North Shore

JoAnn
Harrington

I've lived in West Vancouver for over 55 years and I started playing pickleball in the desert about 3 years ago. Watching it grow in popularity has been very exciting but also very challenging. I would love to see the facilities for the sport keep up to the demand so that the game is accessible to as many people as possible. As a joint North Shore group we have a stronger voice, so I am really looking forward to being the liaison for the West Van area. I am new to the organization, so I have a lot of new people to meet and some work to do. All and any assistance will be appreciated! Thank you!

Betty Eisenhauer

Betty has been playing pickleball for 5 years. She loves pickleball almost as much as her 6 grandchildren. In the community, Betty works with several women's study groups, brings meals to people in need and takes a leadership role in mentoring young people. She is Partner/Owner of Unison Windows and Doors overseeing the day to day operations and accounting duties.

For the past 14 years, Betty has lived in the CNV near the Blvd and 16th and before that in DNV for 18 years.
